Craftsbury Conservation Commission Notes

February 16, 2025

Present: Diane Morgan, Victoria LaGuardia, Nancy Milholland
Absent: Ken Menard, Molly Sease, Farley Brown, Elinor Osborn

Meeting started at 7:05 pm and ended at 7:56 pm

There were not enough members present for a quorum, so it was only a discussion about preparation for having a table at town meeting day. The following items were discussed:

- Have a pad that interested folks can sign with name, address, and email as well as conservation priorities and interests.
- Diane shared she had created a notebook about invasive species. She will get "wall lettuce" information from Elinor to complete the book.
- Have a sandwich board with recent projects listed. Nancy agreed to bring the sign Liz had made for the farmers' market. Nancy will create a sandwich board.
- Diane will bring a table, possibly two, after she visits the gym to see space availability.
- Diane will check with Farley about using a map of Craftsbury as part of our display.
- Table coverage needs starting at 9am , but it was noted that we do not need coverage except during voting when residents are circulating.
- Food at the table was discussed: Diane agreed to bring something, Victoria is bringing Slim Jims and Nancy will bring Hershey's kisses.

Diane shared about the recent Jumping Worm presentation at the Craftsbury Public Library by UVM professor Joseph Gorres. All agreed that these worms present a tremendous risk to soil quality. Nancy agreed to create a post for fb with information to share with the public.

Next Meeting is scheduled for March 16 7pm. Agenda items for next meeting: officers, upcoming projects, and goals for 2026.

Respectfully Submitted Nancy Milholland
